Protecting Houses Of Worship

In recent years, houses of worship have become targets for active shooter attacks. This presents some institutions of faith with a thorny dilemma. They are supposed to be places of peace and sanctuary, open to all who seek, but now they must consider taking measures to protect the faithful that would have been unthinkable in the past.

New Houses Of Worship Security Self-Assessment Tool

In our effort to continually provide needed resources that are focused on safety, security, and preparedness, the Cybersecurity and Infrastructure Security Agency (CISA) is happy to announce the release of the [CISA Houses of Worship Security Self- Assessment Tool](#). This new resource provides the faith-based community with an easy to use assessment tool that produces a formatted report with resources which can be used to identify and address your facility's security concerns.
